<i>R</i>	Flash or Recall. To switch between 2 lines.
	<p>This button functions as last number redial, when making a call (31 digits maximum).</p> <p>This button functions as "pause" when programming a telephone number into a memory bank.</p>
	To select ringer level.

Making a call

To make a call, simply pick up the handset and wait for the dialling tone. Then dial the desired telephone number with the numeric keys. To end a call, replace the handset on the cradle of the base unit or push the hook switch.

Refer to the "T 10 Buttons" section and find out detailed functions which each individual button

One Touch Memory

One Touch Memory provides you with the easiest way to call a frequently used number. Follow the instructions listed below to store a number (21 digits maximum) into the One Touch Memory bank:

1. Pick up Handset.
2. Press and release STORE button ( / ).
3. Press **VIP1/VIP2** followed by the desired phone number. You may enter * or # buttons into the dialling sequence just like the way you usually make calls to the desired phone number after you have picked up the handset. If your Phone is connected to a PABX switching system, you may enter the PAUSE button () into the dialling sequence to insert a timed delay when necessary.

Make a call with One Touch Memory

To make a call with One Touch Memory, simply pick up the handset and wait for the dialling tone. Then Press **VIP1/VIP2** . The stored phone number will be dialled.

Two Touch Memory

Besides the One Touch Memory, the AGFEO T 10 is also equipped with 10 two touch memory banks. Follow the instructions below to store a number (21 digits maximum) into the Two Touch Memory Bank:

1. Pick up handset
2. Press and release the STORE button ( / )
3. Press the MEMORY button () followed by a numbered button from 0 to 9 to select the memory bank position.
4. Enter the desired phone number. You may enter * or # buttons into the dialling sequence just like the way you usually make calls to the desired phone number after you have picked up the handset. If your Phone is connected to a PABX switching system, you may enter the PAUSE button () into the dialling sequence to insert a timed delay when necessary.

Make a call with Two Touch Memory

To make a call with the Two Touch Memory, simply pick up the handset and wait for the dialling tone. Press the MEMORY button () followed by a corresponding numbered button. The stored phone number will be dialled

Ringer Level and Melody

The AGFEO T 10 has three preset ringer melodies and loudness levels. To change the melodies and loudness level, follow the instructions listed below:

1. Pick up handset
2. Press and release the STORE button ()
- 3 Press and release **#**
4. Use the numbered button to make your selection of ringer melodies and loudness level combination.

Numbered Button	Ringer Melody	Loudness Level
1	A	Low
2	A	Normal
3	A	High
4	B	Low
5	B	Normal
6	B	High
7	C	Low
8	C	Normal
9	C	High
0	OFF	OFF

5. Press and release the STORE button()

Notes

When the ringer is in OFF position, no ringing tone will be heard.
The ringer resumes to previous setting automatically once the handset is picked up.
